Dear author,

Congratulations once again on your awarded paper entitled "Continuously Managing Microservice Granularity: An Evidence-Based Industrial Approach", presented at SBES 2025.

We are pleased to invite you to submit an **extended version** of your paper to the *Journal of Software Engineering Research and Development* (JSERD). JSERD is an open-access journal, and **no publication fees** apply.

We kindly ask you to confirm your interest and willingness to submit an extended version of your paper **by November 7, 2025**. Detailed submission instructions are provided below.

Submission Guidelines:

Authors of selected papers are invited to submit extended versions in English for full re-review. The extended version must be **non-trivially extended** beyond the version published at the conference. As a general guideline, the new version should include *at least 30% new material*, conceptually extending the previously published work.

The title of the new (extended) version of the paper **MUST** be different from the one published in SBES2025.

When submitting the extended version of the paper, authors must upload: (i) the new (extended) version of the paper; (ii) a cover letter; and (iii) the version of the paper published in SBES 2025. All files must be in PDF format.

The cover letter should explain why the manuscript is suitable for publication in JSERD, detailing how the work has been extended and why it constitutes a meaningful contribution beyond the original version. Please highlight where new text or results have been included, where the text has been rewritten, and where additional depth has been provided.

Submissions must follow the JSERD LaTeX or MS Word templates and the Research Articles guidelines available at: <https://sol.sbc.org.br/journals/index.php/jserd/about/submissions>.

When submitting your paper, please use the "Comments for the Editor" field to indicate the type of submission. Please do so by typing "Extended version of a best paper published in SBES2025 in this field. Otherwise, the submission will be treated as a standard JSERD submission. Papers in this category will follow the fast-track review process, as described at: <https://sol.sbc.org.br/journals/index.php/jserd/fasttrack>

The deadline for submission of the extended versions is February 7, 2026.

Please confirm that you have received this email and that you intend to submit (or not) your extended version by the above deadline. We look forward to hearing from you by **November 7, 2025 (or earlier)**.

Kind regards,
Leopoldo and Silvia
SBES 2025 Research Track Program Co-Chairs

Opa, Silvia!

Recebi o e-mail. Sim, tenho interesse em submeter uma versão estendida do meu paper para o JSERD. Vou dar uma olhada nas diretrizes e no template.

Abraço,
